Subject: UC Davis Final Report
Attachments: CWB Salmonid Thermal Review Paper.pdf; CWB Salmonid Thermal Review Paper.docx

Attached is the final report from UC Davis that completes the agreement to conduct a literature review to assess the use of EPA Region 10 temperature guidance in the Central Valley. Although the contract end date is today, we have a meeting scheduled for June 21 at 1 PM to discuss any comments. You have a choice of attending in person at UCD or by webinar. Please let me know if you want to attend in person so that we have enough space.

Please make sure to get all written comments to me by Monday, June 25. My last day working is Friday, June 29 and I want to make sure that this project is wrapped up.

Thanks, everyone!

Betty
